

Mission Hope Foundation	Policy Title:	General Board Authorized:	YES
	Student Internship Policy	ESERN:	SP600-07

Mission Hope Foundation supports supervised internships. Our definition of an internship is a supervised work-related experience, volunteer or compensated that is related to an academic discipline and is sponsored, evaluated, and graded by a school faculty member.

We support a proctor model. We do not provide academic credit; however, we work with educational and career organizations to provide the credit and we will provide the work experience and will report participation and completion.
